Why SmartTransit?

New technology is developing at a rapid pace. Already, ride-sharing services such as Lyft and Uber have become potential competitors and collaborators with transit, while electric and driverless cars are becoming a reality. A dynamic, connected and successful transit system can support job creation, improve passenger journeys, and relieve environmental pressures. In order to remain relevant in the 21st century, forward thinking transit agencies must adopt new technologies to improve connectivity, maintain safety and reliability, and increase ridership.

The SmartTransit Congress & Expo is the definitive transit technology show, providing the perfect platform for showcasing the latest innovations in transit technology. The show brings together bus, rail and metro transit agencies, government, and leading technology suppliers to discuss ways of overcoming the challenges affecting transit in the 21st century.

See you in New Jersey!

Best Regards,

James Pickard

“THE SPEAKERS WERE RELEVANT AND EXCELLENT, AND THE OPPORTUNITY TO INTERACT FOR QUESTIONS AND NETWORKING WITH ATTENDEES WERE EASY.”

Clarence Kemper, SkiData Inc, Business Development Manager – Park & Ride

“GLOBAL TRANSPORT FORUM’S EVENTS IN NORTH AMERICA ARE THE IDEAL PLACE FOR ME TO NETWORK WITH PROFESSIONALS IN THE RAIL INDUSTRY.”

Tom Ceunen, Sales Director North America, OTN Systems

The agenda has been formulated with the help of an advisory committee including NYCT, CCJPA, Amtrak, DART and NARP to ensure a relevant and cutting-edge event. The two-day show includes:

- Keynote presentations**
- Panel discussions**
- Intimate round-table dialogues**
- Innovative exhibitor clinics**
- The 2nd Annual SmartRail Innovation Awards**
- Over 10 hours of networking time**

With streamed content focusing on passenger experience, operations, digitization, connectivity, and financing, the conference is sure to be of value to you and your whole team – bring a team of 4 for \$1600!

SmartTransit regularly attracts over 200 transit and government attendees; more end-user involvement than any other show.

You will have the opportunity to meet with the entire value chain of the transit industry, with content for bus, rail, and metro specialists. Attendees include a full range of experts involved in financing, development, procurement, deployment and long-term operations of new technology services. This includes CEOs, finance officers, department heads, project managers, passenger services experts, technical specialists as well as marketing and communications experts.
